Dr. Ray Wisniewski is available for personal consultations at the Penn Hills and Murrysville Offices.

Dr. Ray Wisniewski, the Health Care Answer Man, has tirelessly and relentlessly served his community for the past 25 years. He has performed nearly one million office visits, and has seen and helped nearly every condition imaginable. This has allowed him to develop a high level of skill, experience, and competence, and has resulted in the office becoming one of the largest Chiropractic offices in the country.

Dr. Ray's caring and passion exudes from him as he delves to the cause of the problem. Once you've experienced a visit with Dr. Ray, it is easy to understand why Patients travel for hours just to see him. Discover why Dr. Ray's patients describe a visit to his office as the most positive healing experience of any healthcare facility... Anywhere! And you will quickly learn why they have helped shape his office to be one of the most prominent health facilities in the country.

Dr. Ray does not hesitate to go the extra mile. It has been his desire more than anything else, to in some small way, change the health and the lives of our planet without the use of drugs or surgery, but rather the body's own capacity for attaining health; and to achieve that which we all find so elusive -- Our Maximum Potential.

Due to Dr. Ray's relentless pursuit of saving the lives of this planet, many thousands of people are living healthier and happier lives free from their symptoms, infirmity, or health conditions and are no longer suffering, simply because they have discovered Dr. Ray. It is a shame how many people miss out on so much of what life has to offer, simply because they suffer due to a nagging health problem. Many times, the discomfort or condition may be so tormenting that everything else becomes secondary, except relief from their health condition.

To gain temporary relief, many people try various drugs and painkillers that at best only cover up the symptoms. Usually these remedies do nothing to resolve the cause of the problem.

Over the past 25 years, Dr. Ray has repeatedly challenged himself to improve his art and skills by taking and presenting seminars. He passionately researches information so he can provide his staff and patients with the most current and accurate health methods available. He constantly upgrades his office to utilize the most advanced state-of-the-art technological equipment for optimum results. His staff is educated, caring and the most capable assistance in the health field.

Choose your healthcare professional as if your life depends on it...because it does!

Over the past 25 years, Dr. Ray has presented or received postgraduate training at least 10 times per year, every year. He is considered one of the top nutritional consultants and alternative healers in the country, and is certified in QRA (Quantum Reflex Analysis), which has been called the medicine of the 21st century.

Dr. Ray has been happily married to his wonderful wife, Lori, for more than 22 years.

"One of the greatest and most rewarding decisions of my life has been to practice chiropractic and natural healing for the past 25 years. I can't even describe how wonderful it has been to be a witness to the many amazing results and "miracles" of the body. And it's not just incredible "miracle" patients; for every time the body heals a miracle is occurring. Patients like Betty, who suffered with what she described as a disfiguring rash on her face, and who didn't want to go outside or be seen in public with this condition. We didn't just heal a body, for this affected Betty's life, and for this we healed and saved a life. Over the past 25 years, our office has affected many lives, which is why we have developed some of the most wonderful long-term relationships

with so many of our patients. Patients who suffered from asthma, multiple sclerosis, stroke, eye conditions, diabetes, paralysis and so many other seemingly hopeless conditions.

I am just so thankful to have been able to help so many people who thought they could never be helped. I'm sure we can help you too!!"

We have 3 offices to serve you:
