Louisville, KY 40242

RE: Administrative Complaint #09-060

Dear Dr. Culver:

The Board recognizes decompression to be a form of traction. It is the Board's opinion that you cease and desist stating or advertising that one is more or less effective than the other, based upon the studies provided to the Board. The studies do not substantiate your claims and the Board suggests you reconsider their use as supportive data.

Sincerely,

Lisa Logsdon
Administrative Assistant
